

Scenario 1: (for two DSP and one consumer)

Mike had come home early from work complaining of illness. Staff 1 noted that he sounded congested and showed signs of a cold. Mike went to bed when he got home, and rested until dinner. Mike awoke before dinner and ate dinner with the rest of his house mates.

After dinner, Mike ran to his room to get a sweater while the other consumers went to the van to leave for dessert at Coco's. Mike went out the front door and got into the van.

Staff 1 was in the van and told Mike to go back to the house to rest because he had come home early from work. Mike got out of the van slowly, and walked back into the house.

As Mike walked into the house, he knocked a vase of flowers off the entry table and onto the floor. The vase broke.

Staff 1 followed Mike into the house and told Mike to back to his room to rest since he came home early that day and said he was ill.

Mike moved toward staff 1 with his arm raised and swung at Staff 1. Staff 1 deflected the strike attempt and ran into the kitchen and called 911.

Mike said "sorry" and asked to clean up the broken vase. Staff 1 told him to "just leave it alone, you might get cut"

Mike said he wanted to clean up what he broke. Staff 1 told him "stop being resistive". Mike began to clench his teeth and fists.

Just then Staff 2 walked in the door. Staff 1 told Staff 2 that s/he just called 911 because Mike took a swing at her.
